2. Regarding the Chinese Dual Language program, what is the enrollment process and criteria?
The Chinese Dual Language enrollment application start from kindergarten through 2nd grade. The class always fills up quickly in kindergarten applications. The class seated 25 students. If the child enroll in Chinese Dual Language for 1st grade or 2nd grade, we recommend the students has some Chinese spoken language because we do not want the students to be a little bit far behind from the group of Chinese dual language students who have been having the curriculum done in kindergarten. We never discourage students willing to learn 2nd language. The dual Chinese teachers will do screen interview with the students and parents to ensure parents understand the program and the criteria curriculum of the program.
